

Paper carrier

Paper carrier

- stiff cardboard in A4 format, coated with a special material, for multiple use
- guaranteed security of laminated documents
- permits to laminate with the pouch’s margin wider then 3 mm
- better quality of lamination
- long-lasting cleanness of the rollers in a laminating machine
- allows unilateral lamination

The use of paper carriers permits to perform beautiful photo lamination and make decorative motives with metallized stamping foil. Please remember to set a high temperature on the laminating machine before you start working with the use of paper carrier.
